

STAUFF Exhibition Mobile Unit (EMU as we affectionately know it) is a facility primarily used for some of our trade show activities.

Recently refurbished the Unit is designed to offer displays of the STAUFF product portfolio, that we can bring to you. We have at all branches of STAUFF, in the UK, an open door policy and always welcome visitors to see the state-of-the-art facilities that we are all extremely proud of ...

However ... Do you have design engineers?
With limited time to travel to see us?

Well why not let one of our ASMs come to you?

We can tailor the product on display in EMU to better suit your industry, park on your premises and let your engineers have the next best thing to a full site tour.

If this facility may be of interest to you please email publications@stauff.co.uk for more details.
